**Subject: Invitation to Bid# 2019-TH-01: Low Voltage, Access Control, and CCTV Contractor for the Town's new Municipal Building – Addendum 1**

Ladies and Gentlemen,

Below is the answer to a question received about this project. Please consider this information when preparing your proposal.

- 1. The Federal United States Government has recently passed legislation (that the President signed into law) banning “ALL” Hikvision/Dahua IP Cameras (Including cameras on the list that they provide the OEM for) and associated products for Government facilities due to known backdoor cyber breaches and the fact that Hikvision is owned by Chinese Government. Please confirm that you DO NOT want Hikvision/Dahua products included in this bid.**

The Town DOES NOT want any products from the banned list included in this bid response. A full list of these banned brands is available at the links below:

<https://ipvm.com/reports/hik-oems-dir>

<https://ipvm.com/reports/dahua-oem>

Received by: \_\_\_\_\_ Company: \_\_\_\_\_

Note: Please sign and return this addendum with your sealed bid. Any responder failing to return a signed addendum will still be responsible for complying with these requirements.

Respectfully,

Brandon Perkins  
Town Manager

Incorporated 1911
