Utility Encroachment/Right-of-Way Permit

Utility Restoration, Erosion Control & Cleanup

The Utility Company or its' Contractor will be responsible for calling in all locates. They shall also plan, coordinate, and prosecute the work such that disruption to personal property and business is held to a practical minimum.

All construction areas shall be restored to their original, pre-disturbed condition promptly. Back-filling of underground facilities, ditches, and disturbed areas shall be accomplished on a daily basis as work is completed. Finishing, dressing, and stabilizing shall be accomplished immediately thereafter as a continuous operation within each area being constructed with emphasis placed on completing each individual yard or business frontage. Care shall be taken to provide positive drainage to avoid pending or concentration of runoff. Roadways should be kept clear of debris at all times and swept/cleaned before leaving the work site.

Handwork, including raking and smoothing, shall be required to ensure that roots, sticks, rocks, and other debris are removed in order to provide a neat and pleasing appearance. The stabilization of all disturbed areas, shall immediately follow the completion of the construction activity in order to establish permanent cover at the earliest date. If grass is not in season, proper erosion control measure shall be installed and maintained until all disturbed areas have been stabilized.

The utility company that conducts any utility work that disturbs any areas of ground cover will be responsible for maintaining proper erosion control best management practices until all of the areas have been 100% permanently stabilized as approved by the Town of Tyrone.
